We would call their attention to a matter of great importance to them at this time. The war that has just opened in Europe threatens to assume formidable ensions, and to last an inlefinite period. Cotton is down now; the price is so low that it annut be mised with profit. Is likely to advarce! If so Provisions, at once, have

up, and prices will get be Leit wise, in our agturalists to stake every ing on cotton! Bacon, lard ur, and corn will probably be y high next year. The cross times. How will it with Texas? The late civil demonstrated the productas of our State. The last ar of the war was the most otiful ever known here, be-

ers would raise equal it. Sensible men et on this, and ruise only enough of meat and he cereals for home consumption, but a large surplus for ex port. It will not do for the entire country to be prosp rous, and the South to remain out among the impoverished. Yet that will be the condition of its people if they keep up their long continued, insane mode of farming. Cheap cotton and high provisions, with everything to buy, will prove ruinous management.-Marshal Herald.

WE DAIRS MIT;

h of May, There are several species of millet which are extensively cultivated in different parts of the world for fodder, but what is called the German or Hunga rian is probably the best. There are also several varieties-at least some claim there areamong which the Golden has been highly extolled of late. The German millet flourishes in a somewhat light, dry soil, but the richer the better. It is what may be termed a very leafy plant turnishing a large amount per acre of fine succulent todder, provided it is cut in time, that s, before the seed forms in the trend. It is probably one of the very best of the coarse growing unnual grasses. The seed also makes good feed; but it is most aluable as a forage plant. The seed should be sown at the rate hole wide field of fifteen to twenty quarts per acre, and broadcast upon land previously thoroughly prepared by ploughing and harrowing. The season for sowing is about corn-planting time, or after the ground has become warm nough to insure the germination of the seed. If sown too early, and while the earth is

> likely to spoil. - Ex, White Labor in Demand.

old and wet, the seed is very

With a late entrauchished Southern citizen does not love to work, against and regards loafing as one of the prerogatives of his status. It was supposed at one time Northern prothat white men could not stand to labor in the cotton and sugar profitably fields, and that the Southern climate was not adapted to farm sulture of any kind by the white race, which belief deterthe land of red white emigration to the Southern States. This however, was an erroneous impression. the land of flowtor since the treedom and end of forests, and the franchisement of the colored man, necessity has forced the that will be in white man into the field, and it n fact a sanctuary to is now an established fact that opt of it, and a the climate is adapted to white ends a cordial infield labor, and that the white d an earnest greetman can endure as much and perform as much or more labor For the tarmer, than the colored mun, and the his favorite crop, consequences is that many rield him an abnn-it he will do but poor white laboring men and farmers with small means are ty to ber fertile soil. securing a handsome compethe wish to engage in tency by cultivating but a few es, she offers an emacres of Texas soil .-- Great bay the products South- West. and enterprise. who wish to engage in

Fifty thousand dollars have already been subscribed by some seven gentlemen of Natchez, toward establishing a cetton to all grades and classfactory. The amount required me to come and be is about \$70,000, and the project is assuming a very tangible shape.

DR. TUTT'S

EXPECTORANT.

This unrivaled preparation has per-formed some of the most astonishing

formed some of the most astonishing cures that are recorded in the annals of history. Patients suffering for years from the various diseases of the Lungs, after trying different remedies, spending thousands of dollars in traveling and doctoring, have, by the use of a few bottles, entirely recovered their health.

"WON'T GO TO FLORIDA."

DR. TUTT:

Dear Sir; When in Aiken, last winter, I used your Expectorant for my cough, and realized more benefit from it than anything I erer took. I am so well that I will not go to Florida next winter as I intended. Send me one dozen buttles, by express, for some friends.

ALPRED CUSHINO, 123 West Thirty-first St.

Boston, January 11, 1874.
This certifies that I have recommended the use of Dr. Tutt's Expectorant for diseases of the lungs for the past two years, and to my knowledge many bottles have been used by my patients with the happiest results. In two cast; where it was thought confirmed consumption had taken place the Expectorant effected a cure.

B. H. SPRAGUE, M.D.

"We can not speak too highly of Dr. Tutt's Expontorant, and for the sake of suffering humanity hope it may become more generally known."-Cuntertaw Asycarts. Sold by Druggists. Price \$1.00.

The Brenham Banner,

JAS. A. WILKIMS.

A Daily and Weekly Democratic Journal. PUBLISHED AT BRENHAM, WASHINGTON COUNTY, TEXAS.

RANKIN & McCRIMMON, Editors. Supscription-Daily \$9 per year; Weekly \$2 per year.

THE BANNER has recently been enlarged to a thirty-two column paper: being now the largest paper ever published in the county. It is the only English newspaper published in the county, and is the acknowled organ of the Democracy of Austin, Washington and Burleson counties. Its columns are always well filled with items of State and general news, as well as sound and interesting Editorials upon all the important topics of the day.

THE BANNER is, and always has been the steadfast friend of the poor and working class; as such, has labored for their interest and advancement, by favoring and advocating the emmigration to our county of intelligent and industrious where MEN. It advocates the speedy development of the vast resources of our great and growing State, by encouraging the establishment of manufactories of all kinds; favoring Railroad communication with sections of our State not yet penetrated by existing lines.

THE BANNER is a zealous worker in behalf of Brenham and Washington county. Coming to Brenham in January 1853, when it was but a small village of 300 inhabitants, we have watched its onward march of improvement with great pride and satisfaction: until now instead of 300, her population is near 4000 souls, and still her progress is onward. During this time (20 years,) we have been in some way connected with her journalism, working and stri ving for the posperity of our town, and we expect to continue our labors unremittingly, merely asking a liberal and sustaining patronage at the hands of the public we have so long and faithfully

Politically, the BANNER has ever been found battling for the triumph of the true and living principles of the Democratic party and, as a Democrat have yielded a cordial and hearty support to Gov. Coke and our present State Government. We discuss a public issues from a strictly democratic standpoint, independent of any clique or ring.

THE BANNER opposes and deprecates the extravagance and corruption of the party now controlling the affairs of the General Government, and favors an early restoration of the same into the care and guidance of competent and honest officials-the true representatives of the people. It also favors the most rigid economy in the administration of the affairs of Government, both State and Federal, that labor may be lightly burdened by taxation.
